DATE MAILED:

**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

The IDS submitted on 08/26/2008 has been considered. It does not alter the previous opinion of the examiner, since it does not solve the deficiency of the prior art to reasonably suggest the combination of a displacement disc with varying axial width along the circumference, and a displacement member and guide disks as set forth therein.

/Kenneth Peterson/  
Primary Examiner, Art Unit 3724
